# AHMAD AYUB NU'MAN, S.H.

Cilacap, Central Java, Indonesia • Phone / WhatsApp: +62 895 3491 77555 • Email: ayb.n1994@gmail.com
GitHub: github.com/ayebe51 • LinkedIn: linkedin.com/in/ayub-numan-871406155 • Portfolio: portfolio-seven-theta-bovx80a70x.vercel.app

## PROFESSIONAL SUMMARY

Full-Stack Software Engineer with comprehensive experience directing the end-to-end software development lifecycle (SDLC), from domain modeling (DDD) and requirement discovery to automated testing (1,800+ test cases) and hardened container deployments (Docker/Linux VPS). Proven track record architecting institutional education governance (SIMMACI for 270+ institutions), multi-tenant financial ERP engines with Maker-Checker controls, and cross-platform mobile ecosystems. Combines deep hands-on expertise in React 19, TypeScript, Laravel 12, NestJS, and PostgreSQL 16 with legal governance acumen.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript (ES6+), PHP 8+, Dart, SQL, HTML5, CSS3 / SASS
**Frontend Engineering:** React 18/19, Next.js (App Router), Flutter, Tailwind CSS, Zustand, Framer Motion, Vite PWA, Shadcn UI, Ant Design
**Backend & APIs:** Laravel 11/12, NestJS, Node.js, Express, RESTful APIs, Microservices, Role-Based Access Control (RBAC), API Security
**Databases & Storage:** PostgreSQL 16, MySQL, Prisma ORM, Schema Design, Composite Indexing, Query Optimization, MinIO / S3
**DevOps & Cloud:** Docker, Docker Compose, Linux/VPS Administration (Ubuntu), Nginx (HSTS/CSP), Coolify, Vercel, Git / GitHub
**Architecture & Quality:** Domain-Driven Design (DDD), Spec-Driven Development (SDD), Maker-Checker, Automated Testing (PHPUnit, Pest, Jest), DevSecOps

## PROFESSIONAL EXPERIENCE

**LP MA'ARIF NU CILACAP** *Cilacap, Central Java, Indonesia*
*Full-Stack Software Engineer & Lead Systems Architect* *2024 – Present*

- Architected and deployed SIMMACI, a decoupled full-stack governance platform (React 19 SPA + Laravel 12 REST API on PostgreSQL 16) administering 270+ educational institutions, 2,000+ staff, and 17,000+ active students across Cilacap regency.
- Engineered the institutional Core Financial System (Aplikasi Keuangan) using clean Domain-Driven Design (DDD), immutable double-entry journal ledgers, Money Value Objects, and Maker-Checker segregation of duties, eliminating calculation rounding errors and unauthorized disbursements.
- Automated batch decree (SK) generation and credentialing workflows via Docxtemplater and PHPWord templating engines, reducing administrative turnaround time by over 70% and eliminating duplicate personnel records.
- Built an end-to-end automated testing pipeline achieving 100% pass rate across 1,822 test cases (36,983 assertions) on SIMMACI via PHPUnit/Pest, and 63 financial unit/feature tests (193 assertions) guaranteeing strict balance invariants.
- Hardened production VPS infrastructure and application security: containerized multi-service deployment with Docker & Coolify on Linux VPS, configured Nginx reverse proxy with HSTS and CSP, resolved SEC-001–004 vulnerabilities, and locked down 27 API route guards.

## FEATURED SOFTWARE ENGINEERING PROJECTS

**SIMMACI — ENTERPRISE EDUCATION GOVERNANCE PLATFORM** *github.com/ayebe51/simmaci*
*Core Stack: React 19, TypeScript, Laravel 12, PostgreSQL 16, Tailwind CSS, Vite PWA, PHPUnit/Pest*

- Architected a decoupled single-page PWA dashboard featuring dynamic schema-driven form generation, multi-stage approval review queues, and isolated multi-tenant data pipelines, backed by 1,822 automated test cases ensuring zero production regressions.

**KONEKSI SANTRI — PESANTREN ERP & GUARDIAN MOBILE ECOSYSTEM** *admin.koneksisantri.tech*
*Core Stack: Next.js 14, Flutter (Dart), NestJS, TypeScript, PostgreSQL, Prisma ORM, Docker*

- Engineered a full-stack ERP and cross-platform Flutter app (Portal Wali Santri) with a closed-loop cashless digital wallet, smart gate QR security authorization, automated tuition billing, and consolidated double-entry general ledgers across multi-branch pesantren.

**ENTERPRISE POS & INVENTORY (KIRO ERP) — RETAIL ERP & OMNICHANNEL POS** *inventory-pos-hazel.vercel.app*
*Core Stack: React 19, NestJS, TypeScript, PostgreSQL, Prisma ORM, Apache ECharts, Ant Design*

- Implemented a Domain-Driven Design (DDD) retail management system handling multi-warehouse stock replenishment, procurement 3-way matching (PR/PO/GR), and sub-second cashier POS checkout with an append-only inventory ledger enforcing WAC and FIFO valuations.

## EDUCATION & CREDENTIALS

**STAI AT-TAHDZIB JOMBANG** *Jombang, East Java, Indonesia*
*Bachelor of Laws (Sarjana Hukum - S.H.) — Islamic Economic Law* *Graduated 2019*

- Rigorous academic training in legal compliance, statutory ethics, contract audits, and procedural integrity, directly reinforcing architectural governance, audit trails, and financial invariant verification in software engineering.

**SPEC-DRIVEN DEVELOPMENT DENGAN KIRO — DICODING INDONESIA** *Apr 2026 – Apr 2029 (Credential ID: EYX4Q03J6PDL)*

- Certified competence in Spec-Driven Development (SDD): formal specification design, contract-first API contracts, automated test coverage, and end-to-end requirement traceability.
