AHMAD AYUB NU'MAN

FRONT-END DEVELOPER

Responsive Web Design (RWD) • Reusable Component Architecture • Web Performance & SEO Optimization

Cilacap, Central Java, Indonesia • ayb.n1994@gmail.com • +62 895 3491 77555 • linkedin.com/in/ayub-numan-871406155 • github.com/ayebe51 • portfolio-seven-theta-bovx80a70x.vercel.app

PROFESSIONAL SUMMARY

Detail-oriented Front-End Developer with 1+ years of production experience translating UI/UX mockups into pixel-perfect, accessible, and high-performance web applications. Highly proficient in HTML5, modern CSS3, SASS/SCSS, JavaScript (ES6+), and TypeScript, with strong expertise in React 18/19, Next.js, and Tailwind CSS. Proven track record architecting modular, reusable component libraries for complex enterprise dashboards and creative interactive web applications. Skilled in Responsive Web Design (RWD), cross-browser compatibility testing, Core Web Vitals optimization, and SEO best practices (semantic HTML, Open Graph, structured JSON-LD). Experienced using Git version control, command line tools, and Agile workflows (JIRA, Slack, Backlog). Driven by craftsmanship, clean code structure, and continuous learning.

TECHNICAL SKILLS

Core Web & Languages:	HTML5 (Semantic), CSS3, SASS / SCSS, LESS, JavaScript (ES6+), TypeScript, Responsive Web Design (RWD)
Frameworks & Libraries:	React 18/19, Next.js (App Router), Flutter, Tailwind CSS, Framer Motion, Vite PWA, Zustand, Blade
UI & Component Architecture:	Reusable Component Architecture, Design Mockup Implementation (Figma to Code), Mobile-First Design, Design Systems
Performance & SEO:	SEO Principles (Meta Tags, Open Graph, JSON-LD Schema), Core Web Vitals, Website Optimization, Code Splitting
Testing & Tools:	Cross-Browser Testing & Compatibility, Responsive UI Testing, Git & GitHub (1,940+ Commits), Command Line (CLI)
Workflow & Collaboration:	JIRA, Slack, Backlog, Technical Team Documentation, RESTful API Integration, Information Security Basics (OWASP, RBAC)

PROFESSIONAL EXPERIENCE

Front-End & Web Systems Engineer (Lead UI Architect & Web Systems Developer) 2024 – Present

LP Ma'arif NU Cilacap • Cilacap, Central Java, Indonesia

- Translated high-fidelity UI design mockups into responsive, accessible, and performant web interfaces using React 19, TypeScript, and Tailwind CSS, adhering strictly to mobile-first RWD standards.
- Architected modular and reusable UI component hierarchies for enterprise dashboard applications (SIMMACI), ensuring consistent design tokens, styling cohesion, and maintainability across 270+ institutional modules.
- Conducted rigorous cross-browser testing across Chrome, Microsoft Edge, Safari, Firefox, and mobile viewports, resolving layout regressions, CSS flexbox/grid edge cases, and rendering inconsistencies.
- Optimized website load times and Core Web Vitals through asset minification, modern image formats (WebP/SVG), tree-shaking, and Vite PWA client-side caching.
- Maintained and modified existing frontend codebases, refactoring monolithic views into clean, reusable components with clear prop interfaces and TypeScript typings.
- Integrated RESTful API endpoints with error boundaries, optimistic UI feedback, and asynchronous state management, delivering smooth data-driven dashboards.
- Maintained rigorous version control practices via Git and command line, documenting frontend component APIs, styling conventions, and deployment procedures for the engineering team.

FEATURED FRONT-END PROJECTS

SIMMACI — Enterprise Education Governance Dashboard & Web App *React 19, TypeScript, Tailwind CSS, Vite PWA, Reusable Component Architecture, REST API*

Repository: github.com/ayebe51/simmaci

- Engineered a responsive single-page dashboard application (SPA) administering 270+ institutions, 2,000+ staff, and 17,000+ student data records with interactive data tables and batch document generation interfaces.
- Developed a reusable component library (custom modals, filterable data tables, form validation controls, and summary metric cards) verified across all modern desktop and mobile browsers.

Creative Developer Portfolio (Ayub.dev) — Interactive Web Experience *React, Tailwind CSS, Framer Motion, Lenis Smooth Scroll, Semantic SEO, Vite*

Live Demo: portfolio-seven-theta-bovx80a70x.vercel.app | Repository: github.com/ayebe51/portfolio

- Designed and engineered a creative, dark-mode portfolio featuring fluid typography, magnetic buttons, micro-animations, and smooth inertia scrolling.
- Applied modern SEO best practices including semantic HTML5 structure, descriptive meta tags, Open Graph card protocols, and JSON-LD schema markup.

Koneksi Santri — Campus ERP Dashboard & Flutter Mobile Portal *Next.js 14, Flutter (Dart), TypeScript, Tailwind CSS, REST API Integration*

Live Demo: admin.koneksisantri.tech | Repository: github.com/ayebe51/koneksi-santri

- Developed clean, responsive dashboard interfaces and Flutter mobile views for student admissions, tuition billing, and guardian balance monitoring.
- Ensured full cross-platform responsiveness with adaptive layouts, accessible touch targets, and instant UI state updates.

Enterprise Retail POS & Inventory (Kiro ERP) — High-Speed Cashier UI *React 19, TypeScript, Tailwind CSS, Apache ECharts, Responsive UI*

Live Demo: inventory-pos-hazel.vercel.app | Repository: github.com/ayebe51/inventory-pos

- Created an ergonomic, keyboard-friendly point-of-sale cashier interface and multi-warehouse inventory visualization dashboards with responsive chart breakdowns.

EDUCATION & QUALIFICATIONS

Bachelor of Islamic Economic Law (S.H.) Graduated 2019

STAI At-Tahdzib Jombang • Jombang, East Java, Indonesia

Developed strong analytical thinking, ethical integrity, and attention to detail. Complemented by dedicated independent study and practical software engineering (Autodidact & Continuous Learning) with active production web applications.
