Subject: Application for Sales Representative Position – Ahmad Ayub Nu'man

Dear Ms. Aulia Rahmatika,

I am writing to formally express my strong interest in the **Sales Representative (Indonesia)** position based in Kuningan, South Jakarta, as announced on your Threads post. With direct production experience as a Software and Systems Engineer managing Cloud infrastructure and Cybersecurity controls—combined with a Bachelor of Laws (S.H.) degree—I offer a unique and highly effective blend of technical literacy and commercial negotiation skills for enterprise IT sales.

As a technical professional who has designed, deployed, and presented enterprise software platforms to leadership and administrators across 270+ educational institutions, I bring distinct value to your sales organization:

- **Hands-on Cloud & Cybersecurity Engineering:** Real production experience managing Linux VPS environments, Docker containerization, and Nginx reverse proxy, as well as enforcing critical security controls (Role-Based Access Control, SSL/TLS encryption, and web security hardening). This enables me to speak with authority to CTOs, IT managers, and security officers, effectively address technical objections, and build consultative trust.
- **Solution Demonstrations & Client Consultations:** Experienced in conducting live software demonstrations, assessing client technical needs, and aligning product capabilities with customer operational requirements across 270+ institutions at LP Ma'arif NU Cilacap.
- **Commercial & Legal Contract Acumen:** My academic foundation in Islamic Economic Law (S.H.) gives me a strategic advantage in structuring commercial agreements, reviewing Service Level Agreements (SLAs), and facilitating rapid, risk-free enterprise deal closings.
- **Language & Global Communication:** Fluent in professional English (written and spoken) for cross-border and multinational corporate interactions, with high enthusiasm and aptitude to expand business Mandarin terminology for international stakeholder collaboration.
- **Availability & On-Site Readiness:** Currently based in Cilacap, Central Java, I am immediately available and fully prepared to work full-time on-site at your Kuningan, South Jakarta office, with proactive drive to achieve sales targets.

Attached to this email is my updated Curriculum Vitae formatted to the Harvard Resume Guide standard. I welcome the opportunity to discuss in an interview how my technical knowledge, commercial drive, and customer-centric approach can add immediate value to your sales organization.

Thank you very much for your time and consideration.

Sincerely,

Ahmad Ayub Nu'man, S.H.
