AHMAD AYUB NU'MAN

FULL-STACK DEVELOPER

Next.js (App Router) • Node.js / TypeScript • PostgreSQL & Relational Architecture • AI-Assisted Workflows

ayb.n1994@gmail.com • +62 895 3491 77555 • linkedin.com/in/ayub-numan-871406155 • github.com/ayebe51 • portfolio-seven-theta-bovx80a70x.vercel.app

📍 **Based in Indonesia (100% Ready & Committed to Relocate On-Site to Uluwatu, Bali)**

PROFESSIONAL SUMMARY

High-ownership Full-Stack Developer with 2 years of hands-on production experience architecting end-to-end web applications, internal tools, real-time analytics dashboards, and operational automations without hand-holding. Highly proficient across the modern TypeScript ecosystem (React 19, Next.js App Router, Node.js, NestJS, Tailwind CSS) and relational database architecture (PostgreSQL 16, Prisma ORM). Passionate practitioner of modern AI-assisted engineering and Spec-Driven Development (SDD), collaborating seamlessly with AI agents to rapidly ship robust, resilient business tools. Experienced in cross-platform mobile development (Flutter targeting iOS/Android) and enterprise quality assurance (1,800+ automated test cases). Fully committed and ready to relocate on-site to Uluwatu, Bali to build next-generation real estate operating systems with professional working English.

TECHNICAL SKILLS

Core & Languages:	TypeScript, JavaScript (ES6+), SQL, Dart, HTML5, Modern CSS3, PHP 8+
Frontend & UI/UX:	Next.js (App Router), React 18/19, Tailwind CSS, Shadcn UI, Framer Motion, Responsive Web Design, Zustand, Apache ECharts
Backend & Automation:	Node.js, NestJS, Express, RESTful APIs, Operational Automation Services, Webhooks, Role-Based Access Control (RBAC)
Databases & Modeling:	PostgreSQL 16, Prisma ORM, MySQL, Relational Schema Modeling, Composite Indexing, Transactional Data Integrity
AI & Engineering Workflows:	AI-Assisted Development (LLM Agents, Prompt Engineering), Spec-Driven Development (SDD), Automated Scaffolding & Refactoring, Autonomous Problem-Solving
Testing & Quality Assurance:	Automated Testing (PHPUnit, Pest, Jest - 1,800+ Test Cases), Code Contract Enforcement, Zero-Regression QA, Git & GitHub (1,940+ Commits)
Mobile & Infrastructure:	Cross-Platform Mobile (Flutter / Dart targeting iOS & Android), Docker & Docker Compose, Linux/VPS Administration, Vercel, Nginx (HSTS/CSP)

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer (Lead Systems Architect & Product Lead) **2024 – Present**

LP Ma'arif NU Cilacap • Cilacap, Central Java, Indonesia

- Directed the end-to-end software development lifecycle (SDLC) for high-concurrency web platforms and operational internal tools without hand-holding, translating complex stakeholder workflows into intuitive, resilient software.
- Architected and engineered high-performance web dashboards and internal tools with React 19, Next.js, and TypeScript, featuring real-time data filtering, analytical chart integrations (Apache ECharts), and responsive mobile-first Tailwind UI.
- Developed Node.js and RESTful backend microservices for operational workflow automation, automated batch document generation, and webhook triggers with S3 cloud storage.
- Designed relational PostgreSQL database schemas with multi-tenant isolation, composite indexing, and transactional integrity constraints (enforcing financial balance invariants and append-only ledgers).
- Integrated rigorous AI-assisted development workflows and Spec-Driven Development (SDD) to accelerate feature delivery, architect complex business logic, and maintain clean code contracts.
- Maintained exceptional code quality through 1,822 automated test cases (100% pass rate, 36,983 assertions), continuous debugging, and system security hardening (RBAC, API guards, Nginx HSTS).

SELECTED ENGINEERING PROJECTS (DASHBOARDS & INTERNAL TOOLS)

Enterprise POS & Multi-Branch Inventory (Kiro ERP) — Retail Management & Analytics Dashboard *React 19, Next.js, TypeScript, Node.js / NestJS, Prisma ORM, PostgreSQL, Tailwind CSS, Apache ECharts*

Live Demo: inventory-pos-hazel.vercel.app | Repository: github.com/ayebe51/inventory-pos

- Engineered an end-to-end internal management dashboard and POS system featuring multi-branch inventory tracking, fast cashier checkout, and real-time sales analytics.
- Designed an append-only inventory movement ledger with sub-second transactional consistency on PostgreSQL, and automated 3-way procurement matching (PR/PO/Goods Receipt).

Koneksi Santri — Integrated Management Web Portal & Mobile Ecosystem *Next.js 14, Flutter (Dart), TypeScript, Node.js / NestJS, PostgreSQL, Prisma, Docker*

Live Demo: admin.koneksisantri.tech | Repository: github.com/ayebe51/koneksi-santri

- Built an integrated web management superadmin portal paired with a cross-platform Flutter mobile app (Portal Wali Santri) with real-time digital wallet tracking and QR security checkouts.
- Developed automated operational services for periodic billing dispatch, automated WhatsApp webhook notifications, and multi-entity consolidated balance accounting.

SIMMACI — High-Scale Institutional Governance Platform & Document Automation *React 19, TypeScript, Tailwind CSS, REST APIs, PostgreSQL 16, Vite PWA, Automated Testing*

Repository: github.com/ayebe51/simmaci

- Architected a decoupled enterprise platform centralizing governance for 270+ institutions, 2,000+ staff, and 17,000+ student records with automated batch document templating.
- Backed by 1,822 automated test cases (100% PASS, 36,983 assertions), ensuring rock-solid stability and zero regressions under production load.

EDUCATION & FOUNDATION

Sarjana Hukum (S.H.) — Islamic Economic Law Graduated 2019

STAI At-Tahdzib Jombang • Jombang, East Java, Indonesia

Strong foundation in analytical reasoning, regulatory compliance, and business domain logic, seamlessly transitioning into autonomous full-stack software architecture.

CERTIFICATIONS & CREDENTIALS

Spec-Driven Development dengan Kiro April 2026

Dicoding Indonesia (Dicoding Academy) • Credential ID: EYX4Q03J6PDL

Verified competency in Spec-Driven Development (SDD) using Kiro: structured technical specifications, contract-based API design, and AI-assisted autonomous system architecture.
